Hello. I'm working on mid-year FY16 reporting for the NPDES backlog and priority permits measures. Please see the information below and the attached data and let me know if you have any edits as soon as possible. I have to submit numbers on Friday (apologies for not sending this out earlier), but changes can be made for a short time after that if anything is really off. Feel free to contact me with any questions.

Backlog:

- 2,530/3,040=83.2% Current
 - Majors: 17/69=24.6% Current
 - Minors: 106/269=39.4%
 - General Permit Covered Facilities: 2,407/2,702=89.1%
- See attached background data from ICIS for individual permits and PMOS for general permits
- As a reminder, non-major stormwater permits are not included in this measure

Priority Permits:

- 3/25 priority permits issued or terminated
- See attached priority permit data from PMOS

Thanks,
Jackie
